Fabulous Freehand Curves Supply List

Cut large scale curves freehand without templates or patterns. Add dots, skinny lines, wonky triangles and more to give each curve its own personality, then combine them into a fun original design.

We'll talk about color and design to create the composition as well as the techniques needed.

Best for students with some experience with curves—not for beginners.

- 8-12 fat quarters (18" x 22") or equivalent in a variety of values—lights, mediums and darks - you will cut these into 15" squares, which can be done before class if you wish.

- Sewing machine in good working order with a ¼" foot
- Rotary cutter - I like the 60mm rotary cutter, but bring whatever size you like best, with a new blade
- Large cutting mat—at least 18" x 24"
- Rulers—suggest 15" square and 6" x 12"
- Basic quilting supplies including straight pins, seam ripper, neutral thread, scissors and/or snips for cutting threads, measuring tape, safety pins
- Batting or flannel to use as a "design wall"
- Notebook and pen or pencil to take notes
- Digital camera or phone to take photos of design options (optional)
